

# ANTI-BULLYING ASSEMBLY

A one hour interactive presentation that covers the people involved in a bullying scenario and delves deeper into the feelings and motivations that are the end product of such a scenario. Students will identify the "players" in a bullying scene (Bully, Target, Bystanders, Courageous Bystanders) and then participate in a series of drama exercises that encourage them to look beyond the surface of a typical bullying scene. By "getting inside the heads" of the "characters," students will form a deeper understanding of what causes bullying, the harmful effects of bullying, and what can be done to stop it.
